**JOB TITLE:** **BUSINESS SYSTEMS DEVELOPER**

**REPORTING TO:** **IT MANAGER**

**LOCATION:** Based at LPE, Gosport Street, Lymington, Hampshire, SO41 9EE

---

### PURPOSE OF THE JOB:

As the Business Systems Developer, you will work within a small in-house business systems development and support team to drive continual improvement in LPEs global operations by specifying, developing, and testing improvements to processes and systems. You will have primary responsibility for the administration, application support and development of the IFS systems and Oracle

### Key Responsibilities

- Administering the IFS Applications system and Oracle databases.
- Managing system securities, user accounts & profiles.
- Acting as a liaison between the business and IFS Support in the resolution of support cases. Including 3<sup>rd</sup> party solution providers.
- Managing upgrades and releases to the IFS system inc.end to end testing.
- Development and management of reports (Print/Quick).
- 1<sup>st</sup>/2<sup>nd</sup> line support role for all IFS requirements and support requests.
- Writing IFS system & business process documentation.
- Process development for all business areas & best practice.
- Nominating & training champions on IFS processes.
- Creation of event actions & custom API/IAL.
- Creation and implementation of IFS lobbies.
- Licence management purchasing (IFS/Oracle)
- Define scope & interview consultants to assess suitability for projects
- Liaise with consultant resource as required to achieve project success.
- Managing internal IFS projects to meet business demands.
- System Maintenance.

*You are expected to work with the minimum supervision and may be expected to deal with other duties as appropriate to your skill set and ability. This is an outline of your duties and responsibilities, it is not intended to be an exhausted list and may change from time to time to meet the changing needs of the business. The job description will not form part of your contract of employment.*
